5. Hang Seng Corporate Sustainability Index Series

The constituent selection process for the Hang Seng Corporate Sustainability Index Series (“Index Series”) includes consideration of the results of the HKQAA Sustainability Rating and Research sustainability assessment, developed and carried out by the Hong Kong Quality Assurance Agency (“HKQAA”), under which companies are assigned a sustainability performance score after being assessed in seven core subjects. HKQAA was appointed by Hang Seng Indexes as its project partner for the index series in 2014.

Starting from this index review, the China A-shares universe coverage of the index series has been expanded from about 300 A-share companies to include all Northbound Stock Connect eligible securities – more than 1,200 A-share companies – with the aim of providing different users with a more comprehensive set of ESG data for the China A-shares market.

Please refer to the latest index methodology for further details of the changes.
